About This Game

In Scavenger, you play as a broken space ship. With nothing but your ships' core, that powers everything else, and a cockpit, you must use your tractor beam to attach components to your ship, and survive.

With over 30 different modules to discover, upgrade or find, every ship offers something new. From first generation double barreled cannons, to upgraded, second generation turrets like the Deathbeam, lay waste to as many enemies as you can.

- Discover components and modules for your ship
- Upgrade by combining modules together, to create more powerful, newer generations of turrets
- Fight bosses, and proceed in an ever increasing difficulty

Title: Scavenger
Genre: Casual, Indie, Strategy
Developer:
Hail Mary Games
Publisher:
Peter Skogvold
Release Date: 12 Oct, 2017

a09c17d780

It's interesting, but you can also watch it on youtube.. Fun little game! Wish it was longer.. I dont get the point of the game but it's scary. Remember those "I SPY" books you used to look at as a kid? How about those "Spot the Difference" games in the comics section of a Sunday paper? How about a "Jigsaw Puzzle", one of the oldest toys created? This game is pretty much all of those things put together. I personally only played this game while listening to podcasts, which worked out really well, but I couldn't tell you how it stands on it's own. All of those things I mentioned aren't exactly well known for being the pinnacle of entertainment, but they are good time wasters. Buy it in a pack or on sale.. Best game ever made, why isn't it the top selling game?!. Awesome videos. Very nice DLC. The cars are finely modeled, and the multiple skins for varied consists is a nice touch. The sounds are fantastic, and include brake squealing and hissing of the air lines.

Other sound effects include coupler slack, flat wheels, creaking and groaning (including stress sounds on curves and switches)

Effects are randomized so a car that sounds like it has a flat wheel, may not use that sound later. This is a factor of Train Simulator though, not the DLC.

Very good, would recommend for anyone looking to make better more realistic consists.

Good fun for zombie fans and pixels! I feel like the interface ought to be updated with better by adding text or flashier icons so you can understand the things to click on. Otherwise, nice work!. Standard front-scrolling shooter. But it when on sale. Mildly recommended... why not working in multiplayer this dlc?. Another Abandoned game, DO NOT BUY!!!

Remember the devs, try and find their real names, keep track of this, if you see any game by them in the future...
RUNNNNN!!!!

They steal your money, never finish the games and they RUN!!!

DO NOT BUY!!!. The heart should never be neglected. Definitely it wasn't here, beautiful.
